Within the SmartPie project we investigate the use of PZT piezomaterial for application MEMS devices, either as sensors on cantilevers for instance, or as actuators. The project is in close cooperation with the IMS group of MESA+.

Financing organisation: SmartMix

Groups involved: IMS, TST (MESA+)

People involved: TST: Hammad Nazeer (PhD), Özlem Sardan Sukas (PostDoc), Leon Abelmann (Assoc. prof) IMS: Ruud Steenwelle (PhD), Guus Reinders ( Assoc. prof)

Companies involved: C2V, Oce
