

You are looking for a

**Semester project,
Master project, or
Student job ?**

Are you interested in doing **work with an impact**,
means working on a deployed and productive system...

Are you interested in working with
innovative and interesting infrastructures,
like cameras, smartphones, pdas, or
linux based network computers (see pictures)....

Are you interested in the topics related to
data handling in Sensor Networks ...

Are you familiar with either Java, PhP, C or C++

Contact me a.wombacher@utwente.nl

or have a look at
